BIOGRAPHICAL SKETCH OF THE LIFE OF THE DECEASED.

Interesting Report From a Senatorial tards the Dispatch of Public Business. The Senate to Adjourn in a Few Days. Washington News.

WASHINGTON, March 23.-Hon, Stanley Matthews, of Ohio, associate justice of the tion, the senate did not take the usual three supreme court of the United States, dled at day-recess, 10:05 a. m. ·

He has been quite sick for three weeks, although his original Illness dates much further back. Last week Justice Matthews was so much worse that Dr. Johnson remained with him during the entire night. He passed away peacefully. All of his family, with the exception of his son, were present at the death scene.

JUSTICE STANLEY MANTHEWS

The finieral services will be held here at 1 p. m., on Monday next, and the remains will leave the city at 3 o'clock on the Balti-

Justice Matthews was born in Cincianati, July 21, 1824. He was graduated at Kenyon nessee. He shortly afterward returned to

In 1846 he became editor of the Cincinnatl Heruld, the lirst daily anti-slavery paper in that city. He became judge of the court of common pleas in Hamilton county in 1851, was state senator in 1855, and in 1856-61 was United States attorney for the southern dis-

He served with distinction in the Union army during the war, but resigned his commission as colonel in 1863 to become judge of the superior court of Cincinnati. He was a presidential elector on the Lincoln-Johnson ticket in 1864 and on the Grant-Coifax ticket in 1868. He was defeated as Republican candidate for congress in 1876, and in the next year was one of the counsel before the cele rated electoral commission, opening the argument in behalf of the Republicau electors of Florida, and making the principal Sanitary Plumber tors of Florida, and making the principal argument in Polycon case. In March he was elected United States senator in place of John Sherman, who had resigned. In 1881 he was appointed associate justice of

Too Much Red Tape.

Washington, March 23.—The special committee appointed in the last congress to inrestlgate the methods of doing business in the executive departments, of which Senator Cockrell is chairman, has completed its work, and the report prepared by Sanator Cockrell, who has really been the committee, will be made to the senate in a few days. The document is an exhaustive and interesting one, containing numerous illustrations of how red tape and senseless adherence to forms and precedents interrupt and retard the dispatch of public business.

The report will show that In some depart ments, the pension and land buroaus for instance, it requires as long a time as four or five years to settle a claim or get information of certain kinds. Claims filed as far back as 1884 in these bureaus are still undisposed of. In some offices efforts are making to get out of old ruts and adopt new and better methods, with the result that business is disputched with greater accuracy, more speedily and with greater benefit to those interested. The paymaster general's office is up with current business, and requests for information are answered within twentyfour hours. In the surgeon general's office Dr. Ainsworth has introduced a eard index, by the use of which he has caught up with the business, over a year behind at the time he took hold, and been able to furnish information in 13 per cent, of cases, against 59 per cent, under the old style.

ignore improved ways of doing business; and supposed to have been incendiary. the report will recommend, among other things, that a commission be appointed, with anthority and direction to institute the reform suggested. He thinks the use of the card index in the military and naval records would not only facilitate the transaction of business, but lead to a very considerable reduction of the cierleni ferce now necessary ago. in the several departments.

This notification makes it practically eer tain that no legislative huslness will be transacted before adjournment. A promi nent senator said Thursday that this would be the program. There will probably be, however, some discussion on the resolutions introduced Wednesday by Sountor Butler, declaring that the senate has power to elect a president pro tem, fer service during an entire terra of congress, a deelslon by the senate being desired by a number of suntors upon that disputed point.

In Behalf of the Evening Papers. WASHINGTON, March 23.-Col. Elliott F. Shepard, proprietor of the Mail and Express, of Now York, has addressed the following telogram to the secretary of the ln-

"The change of hour for eenvening the senate to 1 o'clock, instead of as heretofore, wili be a great blow to the evening papers all over the country, causing a delay in the receipt of telegraphic reports of nomina-tions, confirmations and other Senatorial proceedings, and a corresponding disappointment to hundreds of thousands of people who leave the cities every day for the suburbs and have been accustomed to take the news with them. Wlll you not kindly do what you may to have the hour of 12 o'clock ELLIOTT F. SHEPARD."

The World considers Shepard a donkey in journalism for trying to regulate the United States senate, but nevertheless Shepard will receive the thanks of every evening newspaper in the country.

Gladstone Has a New Scheme for His Followers.

IT IS BELIEVED THAT HE WILL CALL A MEETING SHORTLY.

The Campaign to Be Prosecuted With Extraordinary Vigor-Parneilites Critieize the Government-Renewed Rloting In Pesth-One Hundred Arrests Made. Other Foreign News.

LONDON, March 23.—There is every reason to believe that Mr. Gladstone will shortly call a meeting of his followers, and that a new scheme of Home Rule will be submitted for their adoption. The National- rupt laws. ists and Liberals are to be drawn more closely together and an electioneering campaign begun. The campaign will be prosecuted with extraordinary vigor both by frequent speeches from prominent members of the two parties and by organization. Subscriptions are pouring in to assist the latter, one wealthy member in the Liberal ranks already having given £10,000.

A hard fight is expected in Ireland if the rumored sale of the Ponsonby estate proves to be authentic. It is reported that the estate, cienred of its tenants, has been sold a London company for farming purposes. As there are 400 tenants on the place, and they are the most vigorous supporters of the pian of campaign, the government will probably require "nil the queen's horses and all the queen's men," before they finish the business.

In the Reichstag.

BERLIN, March 23.-In the reichstag Thursday the bill providing for a dunl administration of the naval department passed the second reading. In the debate Bismarck, replying to Richter's criticism, showed that the responsibility of the naval authorities to the reichstag would be in uo way altered. The change, he said, was a constitutional one. He declined to be reeponsible for the commander of the navy. The pian only involved the application to the navy of a system that had already been tested in the army-namely, the placing of the admiral-in-chief at the head of the navy, just as the general-in-chief was at the head of the army. Of course, the emperor was the supreme commander of both branches.

Baron Von Frankenstein sald he thought that the necessity for an immediate change had not been sufficiently shown. Prince Bismarck replying, said that the execution of the proposed change would demand some haste should the present peaceful prospects become clouded, .

#### The Government Criticized.

LONDON, March 23, -The Parnellites criticize the government for want of fairness in the statement made by Mr. Matthews, the home secretary, in the house of commons, that the Parnellite counsel should have the same freedom of access to prisoners in getting up their case that the Times lawyers did. The Parnellites pertinently ask if they also will be allowed to extend pardon to convicts who will testify in their behalf as was done in the Times case. Without this powerful lever for raising evidence, the Times would not only possess the advantage they say but the "freedom of access" to convicts will be absolutely useless,
